For **EARTH SPIRIT LIVING: BRINGING HEAVEN AND NATURE INTO YOUR HOME**

With recent alarming changes in our global environment, these days it's good to be green. Unfortunately, most of the information out there on environmentally friendly home design involves a huge investment of money and time — something beyond our budget for most of us.

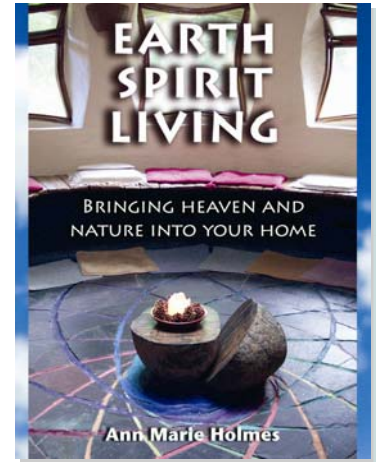

Ann Marie Holmes has great news for your audience: **going green is easier** (and cheaper) than you think!

Ann Marie will explain how to use clues from nature to create more productive and harmonious living spaces that don't cost a fortune. Every homeowner concerned about the environment, or just looking for a more beautiful home, needs to hear from this guest!

Talk to Ann Marie about:

- Solving the problems of clutter and noisy neighbors with simple, effective methods.
- How to find and eliminate the building and remodeling blind spots that cost you money.
- Top 9 tips for cutting time and money from your remodeling and redecorating projects, while staying environmentally compatible.
- How to fight global warming in your own backyard.
- Why sustainable building will improve your home and your life when you adopt a "sustainable attitude," and much more!

CREDENTIALS: A pioneer environmental intuitive, Ann Marie Holmes has been a master consultant of sustainable Feng Shui for over two decades. Ann offers classes and in-depth training programs in sensitivity and green earth design to homeowners, city planners, builders, real estate agents, architects, and others. She is a frequent media guest, and the author of *Earth Spirit Living: Bringing Heaven and Nature Into Your Home* (Atria Books/Beyond Words, a division of Simon & Schuster).
